

FUTURE PIPE INDUSTRIES

Sewer Sectors in Pakistan and almost 40% higher price is being paid for the purchase of GRP pipes and fittings than the cost quoted by FPI on 22nd August'09. The quote submitted for FWO work for supply of GRP pipes and fittings full package was PRs. 425 million.

Please be informed that we further came to know that FPI manufactured GRP pipes are not being approved by clients / consultants for PQA eastern industrial zone project executed by FWO and NLC whereas FPI is the only manufacturer in Pakistan executed and supplied more than 160 km of GRP pipes.

We, therefore, request your kind indulgence to look into the matter and give us the fair chance to participate in supply of GRP pipes and fittings through open tender process as per PPRA rules.

Your kind consideration to the above request is highly appreciated.

Thanking you,

Mir Anwar Ali
